Superintendent

January 18, 2021

Dear Parents and Guardians:

Hanover Public School District has been informed today of a confirmed case of COVID-19 (Coronavirus) at Hanover High School. The individual has not been in class since Thursday, January 14th and is following the Pennsylvania Department of Health guidance on quarantine and measures to take before returning to school.

Families of students who were possibly exposed to the individual within the infectious time period, this past weekend through today, have been notified by the Department of Health or the District Administration. The Department of Health has not recommended that any additional students or staff members be quarantined.

The District will follow all PA Department of Health guidance, including continuation of heightened cleaning measures and continued monitoring of students and staff for any additional suspected or confirmed COVID-19 cases.

Hanover High School and all schools in the district will remain open at this time.

We ask our families to continue monitoring your children for any symptoms of COVID-19 and to continue working with us to ensure the health and safety of our students, faculty and staff throughout this time.

Thank you for your continued support of Hanover Public School District.

Sincerely,

Dr. John A. Scola
Superintendent
Hanover Public School District
