John A. Scola, Ed. D.
Superintendent

September 7, 2020

Dear Parents and Guardians:

Hanover Public School District has been informed today of a confirmed case of COVID-19 (Coronavirus) at Clearview Elementary School. The individual who is the confirmed case was in attendance at the school prior to being diagnosed. The individual has not been in school since Wednesday, September 2nd and is following the Pennsylvania Department of Health guidance on quarantine and measures to take before returning to school.

Families of students and staff members who were possibly exposed to the individual with the positive COVID-19 test result were notified by District administrators and will be notified directly by the Department of Health as necessary. The Department of Health will notify these individuals of quarantine protocols or any measures to take for their health and safety at this time and before returning to school.

The District will follow all PA Department of Health guidance, including continuation of heightened cleaning measures and continued monitoring of students and staff for any additional suspected or confirmed COVID-19 cases.

Clearview Elementary School and all schools in the district will remain open at this time.

We ask our families to continue monitoring your children for any symptoms of COVID-19 and to continue working with us to ensure the health and safety of our students, faculty and staff throughout this time.

Thank you for your continued support of Hanover Public School District.

Sincerely,

Dr. John A. Scola
Superintendent
Hanover Public School District
